

Earn from renewable energy 365 days a year

MarkeDroid optimizes your solar panels and batteries by selecting the best energy source for your home at any given time or by activating flexibility services. It calculates 24 hours ahead to determine the optimal times to buy, sell, store electricity, or provide grid services, with hourly accuracy. Factoring in market prices, home energy use, and solar production, the system is fully automated.

MarkeDroid benefits that other EMS platforms do not have:

- Same device readiness to participate in the flexibility market
- Plug & Play
- Multi inverter vendor support
- Battery Arbitrage Savings
- Smart Solar Sales
- Smart Import Limit
- Smart 15 min management
- Home specific AI modeling

MarkeDroid Benefits

Check out MarkeDroid benefits for yearly EMS based on battery capacity. Benefits depend on market performance and are not guaranteed. Table is applicable when the spread difference is 1.11 SEK in 24 hours.

Battery capacity kWh	Battery Arbitrage Savings yearly	Smart solar sales +20% in a year	Smart import limit +20% in a year	Smart 15 min management +10% in a year	Home specific AI modeling +10% in a year	Total Savings	Annual fee (inc. VAT)
10	3,600 SEK	720 SEK	720 SEK	360 SEK	360 SEK	5760 SEK	1250 SEK
15	5,400 SEK	1,080 SEK	1,080 SEK	540 SEK	540 SEK	8640 SEK	1875 SEK
20	7,200 SEK	1,440 SEK	1,440 SEK	720 SEK	720 SEK	11,520 SEK	2250 SEK
25	9,000 SEK	1,800 SEK	1,800 SEK	900 SEK	900 SEK	14,400 SEK	2812.5 SEK
30	10,800 SEK	2,160 SEK	2,160 SEK	1,080 SEK	1,080 SEK	17,280 SEK	3187.5 SEK
40	14,400 SEK	2,880 SEK	2,880 SEK	1,440 SEK	1,440 SEK	23,040 SEK	3750 SEK

ROI

Battery cost per kWh is 3000 SEK. With EMS subscription, get your battery investment back in 5 years.

Plug and Play

Set-up takes 1 min, first results in 24h.
